Mammoth Resources Corp.
Notes to the Condensed Consolidated Interim Financial Statements
For the three and nine months ended October 31, 2020
(Reported in Canadian dollars)

1. Nature of operations

Mammoth Resources Corp. (“Mammoth” or the “Company”) was incorporated on January 7, 2011 under the *Canada Business Corporations Act*, and is involved in the acquisition, exploration and evaluation of mining properties in Mexico. Its stock is listed on the TSX Venture Exchange under the symbol MTH. The head office of the Company is located at 410-150 York Street, Toronto, Ontario, Canada M5H 3S5.

Mammoth is an exploration stage company and currently has interests in mineral exploration properties in Mexico. Substantially all of the Company’s efforts are devoted to financing and developing these properties and/or acquiring new ones. There has been no determination whether the Company’s interests in mineral exploration properties contain mineral reserves, which are economically recoverable.

2. Going concern

The financial statements have been prepared on the basis of accounting principles applicable to a going concern, which contemplate the realization of assets and the discharge of liabilities in the ordinary course of business. As of October 31, 2020, the Company had recurring net losses and negative cash flows from operations. In addition, the Company has future spending commitments with the Government of Mexico to keep its exploration concessions in good standing.

For the nine months ended October 31, 2020, the Company incurred a net loss of \$222,270 (2019 – \$29,674) and used cash from operations of \$50,857 (2019 - received cash from operations of \$700). As at October 31, 2020, the Company had an accumulated deficit of \$2,935,596 (January 31, 2020 - \$2,713,327) and a working capital deficit of \$701,637 (January 31, 2020 – \$759,700). The business of exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of exploration properties and the Company’s continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves and the achievement of profitable operations. The Company also is dependent upon its ability to continue to raise adequate financing and there can be no assurances that the Company will be successful. These circumstances comprise a material uncertainty which may lend significant doubt as to the ability of the Company to continue as a going concern. Changes in future conditions could require material write-downs of the carrying values. The Company is actively targeting sources of additional financing which may assure continuation of the Company’s operations and exploration programs.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by countries to fight the virus. Therefore, it is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business or ability to raise funds.

The financial statements do not reflect the adjustments or reclassification of assets and liabilities, which would be necessary if the Company were unable to continue its operations as a going concern.

Statement of compliance

The Company’s condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with the International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including International Accounting Standards (“IAS”) 34, Interim Financial Reporting. The condensed interim financial statements do not include all financial risk management information and disclosures as required in the audited annual financial statements. The condensed consolidated interim financial statements should be read in conjunction with the audited annual financial statements for the year ended January 31, 2020, which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies and methods of computation remain the same as presented in the audited financial statements for the year ended January 31, 2020.

There are no new IFRS and/or International Financial Reporting Interpretations Committee (“IFRIC”) pronouncements

currently in effect that would have a material effect on the Company.

These financial statements have been prepared on the historical cost basis except for certain non-current assets and financial instruments, which are measured at fair value, as explained in the accounting policies.

3. Government taxes recoverable

The Company's government taxes recoverable arise from two main sources: The Canadian harmonized sales tax ("GST"/"HST") receivable due from the Canadian government taxation authorities and the value added tax ("VAT") receivable due from Mexican government taxation authorities.

	October 31	January 31
	2020	2020
Canadian Sales Tax (GST/HST)	\$ 4,825	\$ 6,078
Mexican Sales Tax (VAT)	117,603	135,671
	\$122,428	\$141,749

The Company exercises judgment in presenting the Mexican Sales Tax (VAT) recoverable as non-current. It is management's judgment that the VAT recoverable is a non-current asset as the timing of the receipt cannot be determined.

4. Exploration and evaluation assets

The Company has incurred the following acquisition costs and deferred exploration costs on its exploration and evaluation assets:

For the nine months ended October 31, 2020	Tenoriba Project
Acquisition costs, January 31, 2020 and October 31, 2020	\$ 216,614

Title to exploration and evaluation assets involve certain inherent risks due to the difficulty of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyance history of exploration and evaluation assets. The Company has investigated title to all of its exploration and evaluation assets, and, to the best of its knowledge, title to all of its properties, except as described below, are properly registered and in good standing. However, there can be no guarantee of title and the exploration and evaluation assets may otherwise be subject to prior claims, agreements, or transfers and rights of ownership may be affected by undetected defects. The properties in which the Company has earned or committed to earn an interest are located in Mexico.

Tenoriba Area

Mammoth signed an agreement (the "**Agreement**") with two private Mexican citizens on July 3, 2012 to option the Tenoriba project in southwestern Chihuahua State, Mexico. The Agreement pertains to three concessions, Mapy, Mapy2 and Fernanda, collectively referred to as the **Tenoriba Project**. The terms of the Agreement permitted the Company to acquire a 100% interest in the Tenoriba Project, subject to a 2% Net Smelter Return ("**NSR**") royalty payable to the vendors upon commercial production (the royalty can be purchased by the Company at any time within a two-year period from commencement of commercial production for US\$1,500,000), by issuing a total of 225,000 common shares and making total cash payments of US\$160,000 to the vendors over a four-year option period and spending US\$1,000,000 in exploration expenditures on or before June 30, 2016. On March 12, 2015 the Company amended the original option agreement on Tenoriba, extending the Company's commitments to earn its 100% interest in Tenoriba to the end of 2019. The Company has earned a 100% interest in the Tenoriba Project, subject to the 2% NSR.

On October 3, 2012, the Company, through its Mexican subsidiary, registered the Mapy3 concession comprising 1,849.6 hectares and located directly east of the Mapy and Mapy2 concessions. On February 18, 2018, the Company received confirmation of title from the Direccion General de Minas (mining department of the Mexican government) acknowledging title to the Mapy3 concession. The Company is 100% holder of this concession and is now part of the Tenoriba Area.

The Tenoriba Area is thus comprised of four concessions, Mapy, Mapy2, Mapy3 (collectively the "**Mapy Concessions**") and Fernanda.

Centerra Option Agreement

On December 17, 2018, the Company signed an option agreement with Minera Centerra S.A. de C.V. (“Centerra”) (a subsidiary of Centerra Gold Inc. (“Centerra Gold”)) whereby the Company had granted Centerra the right to acquire an initial 51% interest in the Tenoriba Project by spending US\$5 million in exploration expenditures and making payments to Mammoth of US\$400,000 and a second tranche ownership option whereby Centerra could earn an additional 19% interest by spending US\$4 million in exploration expenditures and making a payment of US\$600,000 to Mammoth.

On September 22, 2020, Mammoth announced that Centerra had informed the Company it was ceasing all exploration activities in Mexico, including at Tenoriba and that this decision was “no reflection upon any of the exploration properties it was involved in, including the Tenoriba property”. Subject to a 60-day notice period, all ownership interests, information, permissions and applications for permissions to explore the Tenoriba property were to be transferred to Mammoth.

5. Loan from third party

During the year ended January 31, 2020, the Company borrowed \$13,109 from the vendor and made repayments of \$1,951. The loan bears interest at 2.0% per month, is unsecured and due on demand. During the nine months ended October 31, 2020, the Company repaid the loan plus interest.

7. Loss per share

The calculation of basic loss per share for the three and nine months ended October 31, 2020 was based on the loss attributable to common shareholders of \$94,451 and \$222,270 respectively (October 31, 2019 - \$7,257 and \$29,674) and on the weighted average number of common shares outstanding of 39,874,788 and 35,572,460 respectively (October 31, 2019 – 32,586,788 and 32,182,652).

8. Related party transactions and key management compensation

The Company defines its key management as directors, Chief Executive Officer, Chief Financial Officer and VP Exploration. For the nine months ended October 31, 2020, key management compensation and interest expense accrued to senior officers, totaling \$148,250 (2019 - \$44,241) including share-based payments of \$39,072 (2019 - \$nil). Shares for debt were issued June 15, 2020, which reduced the compensation accrued to senior officers by \$59,993.

The following table summarizes information on related party transactions:

	Three months ended		Nine months ended	
	October 31, 2020	2019	October 31, 2020	2019
Amounts recorded in Exploration and Evaluation assets:

As at October 31, 2020, amounts due to related parties were \$338,836 (January 31, 2020 - \$321,912). This liability represents the accrued consulting fees due to the CEO, CFO and the VP Exploration. The Officers have opted to defer payment of their consulting fees in order to use the Company's cash for business and exploration activities.

Mammoth Resources Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the three and nine months ended October 31, 2020

(Reported in Canadian dollars)

As at October 31, 2020, a loan payable to the CEO amounted to \$224,110 (January 31, 2020 - \$241,079). The loan bears interest at 13%, is unsecured and due on demand. This liability represents the expenses the CEO has paid on behalf of the Company. As of October 31, 2020, accrued interest on the loan amounted to \$17,575 (January 31, 2020 - \$41,469).

On March 29, 2019, \$20,000 of the loan was settled by the issuance of 400,000 common shares of the Company valued at \$18,000, which resulted in a gain on settlement of \$2,000. On July 23, 2020, \$53,990 of the amounts due to related parties was settled by the issuance of 1,714,100 common shares of the Company.

The Company entered into consulting agreements with the CEO and VP Exploration for the provision of consulting services subject to the capitalization of the Company (funds available from a financing, other financing related activities, including project funding, and free of any accruals and debt) as follows:

Annual Base Compensation	CEO	VP Exploration
Capitalization (Net proceeds of a financing):		
Between \$0 to \$500,000	\$66,000	\$42,000
Between \$500,000 to \$1,000,000	\$90,000	\$72,000
Greater than \$1,000,000	\$170,000	\$126,000

In addition to base fees noted above, the officers are eligible for a discretionary bonus up to 100% of base fees as recommended by the Compensation Committee and approval by the Board of Directors.

The provision of the services shall continue for a period of five years from the Effective Date and shall be extendable by concurrent periods of 6 months each, unless otherwise terminated. The Company must provide six and twelve months written notice of termination for the VP Exploration and CEO, respectively, but reserves the right to waive such notice upon paying the fees, which would have accrued during these periods. Should the Company be subject to a change of control and the agreements terminate, the agreements will terminate immediately, and the Company will be required to pay the base fees equal to 24 and 36 months for the VP Exploration and CEO, respectively, at the rates equivalent to Capitalization greater than \$1,000,000, plus an amount equal to any discretionary bonus paid or accrued in the preceding 12 month period.

10. Financial instrument risk management

Credit risk

The Company's credit risk is primarily attributable to its cash. The risk exposure is limited to their carrying values at the statement of financial position date. Cash is held as cash deposits with counterparties that carry investment grade ratings as assessed by external rating agencies. The Company does not invest in asset-backed deposits or investments.

Mammoth Resources Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the three and nine months ended October 31, 2020

(Reported in Canadian dollars)

Interest rate risk

The Company is not exposed to significant interest rate risk since it has no interest-bearing debt except loans from related party and third party, which bear a fixed rate of interest. Cash is held in accounts of financial institutions that do not bear significant interest.

Liquidity risk

The Company's objective is to ensure that there is sufficient cash available to meet annual business requirements. As of October 31, 2020, the Company had cash of \$47,365 to settle current liabilities of \$790,359. As the Company does not have operating cash flow, the Company has and will continue to rely primarily on loans from an Officer and equity financing to meet its capital requirements.

Price risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors the commodity prices of precious metals and the stock market to determine the appropriate course of action to be taken by the Company.

Currency risk

The Company operates in Canada and Mexico, and is therefore exposed to foreign exchange risk arising from transactions denominated in a foreign currency.

The operating results and the financial position of the Company are reported in Canadian dollars. The fluctuations of the operating currencies in relation to the Canadian dollar will consequently have an impact upon the reporting results of the Company and may also affect the value of the Company's assets and liabilities.

The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

Based on management's knowledge and experience of the financial markets, management does not believe that the Company's current financial instruments will be affected by interest rate risk, currency risk or credit risk.

11. Capital risk management

The Company's objective when managing capital is to raise sufficient funds to execute its exploration plan and to meet its ongoing administrative costs. At October 31, 2020, the Company's capital consisted of items in shareholders' equity, in the amount of \$1,654,115 (January 31, 2020 - \$1,585,669).

The properties in which the Company currently has an interest are in the exploration stage. As such, the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed.

The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company does not have any externally imposed capital requirements or covenants.

12. Segmented information

The Company has one reportable operating segment, being the acquisition and exploration of exploration and evaluation assets in Mexico. All of the Company's exploration and evaluation assets are located in Mexico.
