Mammoth Resources Corp.
Notes to the Condensed Consolidated Interim Financial Statements
July 31, 2017
(Expressed in Canadian dollars)

1. Nature of operations

Mammoth Resources Corp. (“Mammoth” or the “Company”) was incorporated on January 7, 2011 under the *Canada Business Corporations Act*, and is involved in the acquisition, exploration and evaluation of mining properties in Mexico. Its stock is listed on the TSX Venture Exchange under the symbol MTH. The head office of the Company is located at 410-150 York Street, Toronto, Ontario, Canada M5H 3S5. The registered and records office of the Company is located at Suite 2600, Oceanic Plaza, 1066 West Hastings Street, Vancouver, British Columbia, Canada V6E 3X1.

Mammoth is an exploration stage company and currently has interests in mineral exploration properties in Mexico. Substantially all of the Company’s efforts are devoted to financing and developing these properties and/or acquiring new ones. There has been no determination whether the Company’s interests in mineral exploration properties contain mineral reserves, which are economically recoverable.

On January 18, 2017, the Company consolidated its share capital on the basis of four old common shares for one new common share. Outstanding stock options and warrants were adjusted by the consolidation ratio. All common shares and per common share amounts in these consolidated financial statements have been retroactively restated to reflect the share consolidation.

2. Going concern

These condensed consolidated interim financial statements (the “Financial Statements”) have been prepared on the basis of accounting principles applicable to a going concern, which assumes the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. Accordingly, it does not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than in the normal course of business and at amounts that may differ from those shown in these financial statements.

For the six months ended July 31, 2017, the Company incurred a net loss of \$142,503 (2016 – \$39,892), and used cash from operations of \$119,261 (2016 - used cash from operations of \$48,106). As at July 31, 2017, the Company had an accumulated deficit of \$2,851,275 (January 31, 2017 - \$2,709,948) and a working capital deficit of \$291,659 (January 31, 2017 – \$516,238). The business of exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of exploration properties and the Company’s continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves and the achievement of profitable operations. The Company also is dependent upon its ability to continue to raise adequate financing and there can be no assurances that the Company will be successful. These circumstances comprise a material uncertainty which may lend significant doubt as to the ability of the Company to continue as a going concern. Changes in future conditions could require material write-downs of the carrying values. The Company is actively targeting sources of additional financing which may assure continuation of the Company’s operations and exploration programs.

3. Basis of preparation and significant accounting policies

Statement of compliance

The Company prepares its condensed consolidated interim financial statements (the “Financial Statements”) in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The Financial Statements should be read in conjunction with the Company’s audited consolidated financial statements as at and for the year ended January 31, 2017 and

Mammoth Resources Corp.
Notes to the Condensed Consolidated Interim Financial Statements

(Expressed in Canadian dollars)

have been prepared using accounting policies consistent with those used in the Company's January 31, 2017 annual consolidated financial statements except for new standards and amendments mandatorily effective for the first time from February 1, 2017.

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for certain financial instruments classified at fair value through profit or loss which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

4. Government taxes recoverable

The Company's receivables arise from two main sources: harmonized sales tax ("GST"/"HST") receivable due from Canadian government taxation authorities and value added tax ("VAT") due from Mexican government taxation authorities. The receivables balance is broken down as follows:

	July 31 2017	January 31 2017
	\$	\$
GST/HST Recoverable	15,336	455
Mexican Sales Tax (VAT)	58,651	44,280
	73,987	44,735

The Company exercises judgment in presenting the Mexican Sales Tax (VAT) recoverable as current or non-current. It is management's judgment that the VAT recoverable is a non-current asset as the timing of the receipt cannot be determined.

Deferred exploration costs, January 31, 2017	1,202,191
Total exploration and evaluation assets, January 31, 2017	1,306,944

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to all of its exploration and evaluation assets, and, to the best of its knowledge, title to all of its properties, except as described below, are properly registered and in good standing. However, there can be no guarantee of title and the exploration and evaluation assets may otherwise be subject to prior claims, agreements, or transfers and rights of ownership may be affected by undetected defects. The properties in which the Company has earned or committed to earn an interest are located in Mexico.

Tenoriba Project

On July 3, 2012, the Company signed a definitive agreement with two private Mexican citizens to option the Tenoriba gold and silver project located in southwestern Chihuahua State, Mexico (the "Agreement"). The Tenoriba project is comprised of three concessions, Mapy 1, Mapy 2 and Fernanda.

The terms of the original Agreement permit the Company to acquire a 100% interest in the Tenoriba project comprising the Fernanda Concession and the Mapy Concessions by issuing a total of 225,000 common shares and making total cash payments of US\$160,000 to the vendors over the four year option period and spending US\$1 million in exploration expenditures on or before June 30, 2016. The Agreement also allows for a 2% NSR royalty payable to the vendors upon commercial production. The royalty can be purchased by the Company at any time within a three month period from commencement of commercial production for US\$1,500,000.

On March 12, 2015, the Agreement was amended (the "Amended Agreement") and on September 28, 2016, the Agreement was further amended (the "Second Amended Agreement") to provide for the following payments:

'Fernanda' Concession Option Details

Pursuant to the Agreement, the Company has issued 50,000 common shares and made cash payments of US\$23,750 as follows:

1. 12,500 common shares and USD\$5,000 on or before December 30, 2012 (issued and paid);

The Company will earn a 100% interest in the Fernanda concession upon the completion of the obligations above.

'Mapy' Concession Option Details

Pursuant to the Agreement, the Company issued 37,500 common shares as follows:

1. 18,750 common shares on or before December 30, 2013 (issued); and
2. 18,750 common shares on or before June 30, 2014 (issued).

Pursuant to the Amended Agreement, the Company would issue 116,394 common shares and make cash payments of US\$62,500 as follows:

1. 35,144 common shares on or before December 30, 2015 (issued);
2. 18,750 common shares (issued) and USD\$12,500 on or before June 30, 2016;

Commitment

Effective May 1, 2017, the Company has entered into revised consulting agreements with three senior officers of the Company for the provision of consulting services at a current cost of \$120,500 per annum plus a bonus ranging from 0% to 100% per annum as recommended by the Compensation Committee and approval by the Board of Directors. During the three months ended July 31, 2017 \$30,125 has been accrued and included in due to related parties. All previous amounts contracted including bonus entitlements have been waived. Based on the cash capitalization of the Company this obligation rises to a maximum of \$346,000 per annum when cash raised above \$1 million is achieved.

The agreements will continue indefinitely, and are subject to the termination notice given by either party. The Company must provide six month's written notice for termination but reserves the right to waive such notice upon paying the fees which would have accrued during the six-month period. Should the Company be subject to a change in control and the agreements terminated, the engagement will terminate immediately and the Company will be required to pay an amount equal to between 12 and 36 months of fees at the maximum contracted annual rate for a minimum payment of \$812,000 plus any bonus amount payable.

11. Financial instrument risk management

a) Risk management

Credit risk

The Company's credit risk is primarily attributable to its cash and government taxes recoverable. The risk exposure is limited to their carrying values at the statement of financial position date. Cash is held as cash deposits with counterparties that carry investment grade ratings as assessed by external rating agencies. The Company does not invest in asset-backed deposits or investments.

Interest rate risk

The Company is not exposed to interest rate risk since it has no interest-bearing debt and its cash balances are not invested in interest-bearing instruments.

Liquidity risk

The Company's objective is to ensure that there is sufficient capital in order to meet annual business requirements, after taking into account administrative, property holding and exploration budgets, against cash. As of July 31, 2017, the Company had cash of \$29,060 in cash to settle current liabilities of \$383,923. As the Company does not have operating cash flow, the Company has and will continue to rely primarily on equity financing to meet its capital requirements.

Price risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors the commodity prices of precious metals and the stock market to determine the appropriate course of action to be taken by the Company.

Currency risk

The Company operates in Canada and Mexico, and is therefore exposed to foreign exchange risk arising from transactions denominated in a foreign currency.

The operating results and the financial position of the Company are reported in Canadian dollars. The fluctuations of the operating currencies in relation to the Canadian dollar will, consequently have an impact upon the reporting results of the Company and may also affect the value of the Company's assets and liabilities.

The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

Based on management's knowledge and experience of the financial markets, management does not believe that the Company's current financial instruments will be affected by interest rate risk, currency risk or credit risk.

12. Capital risk management

The Company's objective when managing capital is to raise sufficient funds to execute its exploration plan and to meet its ongoing administrative costs. At July 31, 2017, the Company's capital consists of items in shareholders' equity, in the amount of \$1,228,806 (January 31, 2017 - \$784,986).

The properties in which the Company currently has an interest are in the exploration stage. As such, the

Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed.

The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company does not have any externally imposed capital requirements or covenants.

13. Segmented information

The Company has one reportable operating segment, being the acquisition and exploration of exploration and evaluation assets in Mexico. All of the Company's equipment and exploration and evaluation assets are located in Mexico.
